

# FIXTURES FIT FOR THE KING and THE QUEEN of The Modern American Home

A BOOK OF DEMONSTRATIONS NO. 9

Published by  
THE REPUBLIC BRASS COMPANY and its subsidiary GRABLER REPUBLIC, Inc.  
CLEVELAND, OHIO

## *THIS is an age of "Style-Conscious" Buyers*

**T**ODAY a new body style is born. Tomorrow it's the motoring mode—the automobile fashion of the hour.

Today cables flash the news of the latest Paris creations. Tomorrow shops on Fifth Avenue, Michigan Boulevard and a thousand Main Streets frantically cater to the "latest" feminine vogue.

Modern America needs no urge to style. Modern America welcomes style . . . with open, enthusiastic minds. Yes . . . and with open pocketbooks . . . ready, able pocketbooks.

Ride the crest of the style wave. Your clients and customers—Mr. and Mrs. Modern Buyer—are eager, receptive for suggestions on the latest fashions in bathroom fixtures.

Here's your opportunity to act as style counsellor on bathroom fixtures.

The following pages illustrate distinguished fixtures for well appointed bathrooms.

And the name "Republic" on every fixture is a signet of advanced style and supreme good taste . . . and an outer symbol of inner worth.

# REPUBLIC

# ART *expressed in the* TRUART FIXTURE

STUDIED scrutiny confirms your first impression that this fixture is dated today . . . in its up-to-dateness . . . modernity . . . style.

Modern . . . *decidedly so*. But combining with modernity those priceless elements of good taste and sound design that distinguish the truly artistic.

Gracefully flowing curves . . . classic lines. Add to these a finish that borrows the beauty of platinum . . . and you have the answer to the dynamic eye-appeal of this charming new Republic creation. . . .

the Republic TRUART Bath and Shower Fixture.

The TRUART  
Lavatory Fixture

Patent Nos. 1,187,477, 1,579,503, 1,332,793,  
1,556,406, 17,034.

## Bath, Shower & Lavatory Fixtures

# DISTINCTION expressed in the AMBASSADOR FIXTURE

The Republic  
AMBASSADOR Bath and  
Shower Fixture—No. 1242.

Patent Numbers 1,332,793,  
1,579,503, 1,556,406, 1,647,984,  
1,187,477, 17,034.

The Republic  
AMBASSADOR Lavatory  
Fixture—No. 937.

Patent Numbers 1,647,984,  
1,556,406.

The AMBASSADOR Swing  
Spout Kitchen Sink Fixture  
No. 527½.

WOMEN of fashion use  
color to distinguish—not  
to startle. That marks good  
taste.

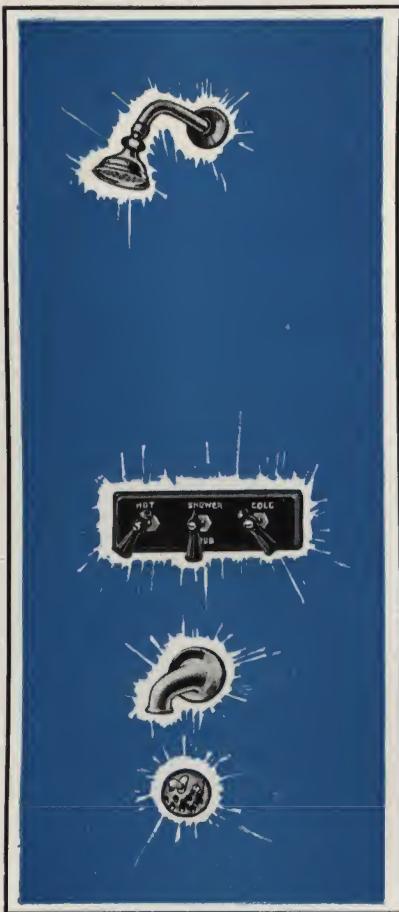

Republic recognized this principle in designing the Ambassador Fixture. The satin-like sheen of its chromium finish becomes vivid, vibrant, brilliantly alive under the influence of that little band of color skirting the wall plates.

The wide range of shades inspires artists and designers to achieve many beautiful and impressive color harmonies. Color bands are available in vermillion, crimson, dark blue, light blue, green and orange. Also in black.

# REPUBLIC

# CONTRAST

*expressed in the*  
**NUBIAN**  
**FIXTURE**

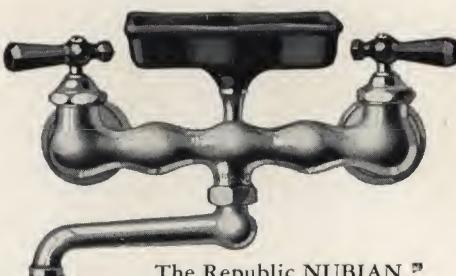

The Republic NUBIAN  
 Bath and Shower Fixture  
 No. 1235-P.

Patent Numbers  
 1,332,793, 1,579,503, 1,556,406,  
 1,647,984, 1,187,477, 17,034.

The Republic NUBIAN  
 Lavatory Fixture No. 935-P.

Patent Numbers 1,647,984,  
 1,556,406.

The Republic NUBIAN<sup>®</sup>  
 Swing Spout Kitchen Sink  
 Fixture No. 526 1/2.

THE flaming scarlet of the sinking sun silhouetted against the deep blue of the horizon; the deep red of the rose against green foliage; the lustrous whiteness of the pearl outlined against the raven-like blackness of the jeweler's mat.

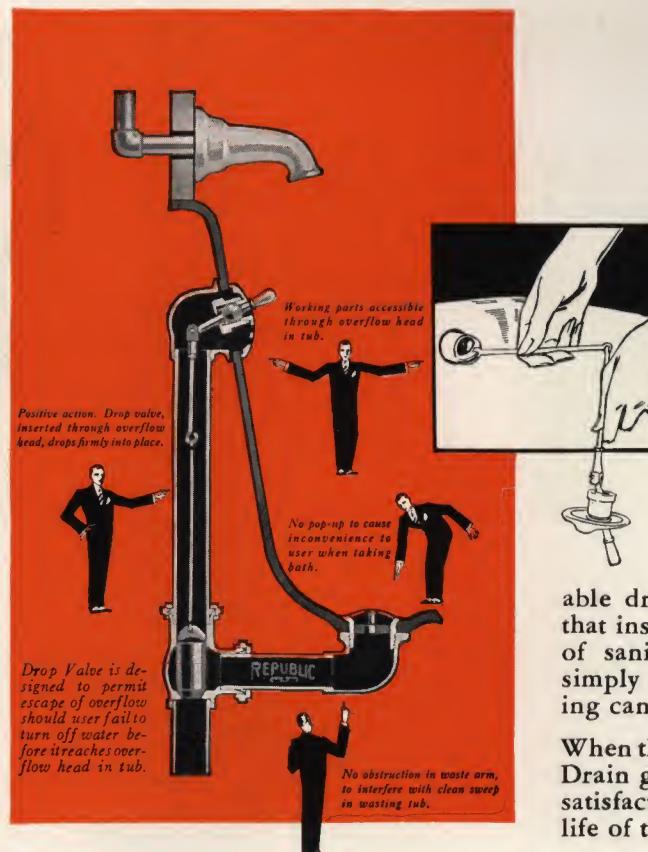

CONTRAST. Beauty's faithful servant. Exemplified in an impressive way in the Republic Nubian Fixture. Ebony-black and platinum-like chromium contrasting with dynamic brilliance.

This fixture supplies the answer to your client's or customer's demand for "something distinctly different in a bathroom treatment."

## *Bath, Shower & Lavatory Fixtures*

# The REPUBLIC Trip Lever Drain

*"The Drain with the Quick, Clean Sweep"*

WITH a rush and a plunge the mighty waters cascade over the steep waterfall. With similar action do the waste waters sweep their swift way through the generously-sized, unobstructed channel—or waste arm—of the Republic Trip Lever Drain.

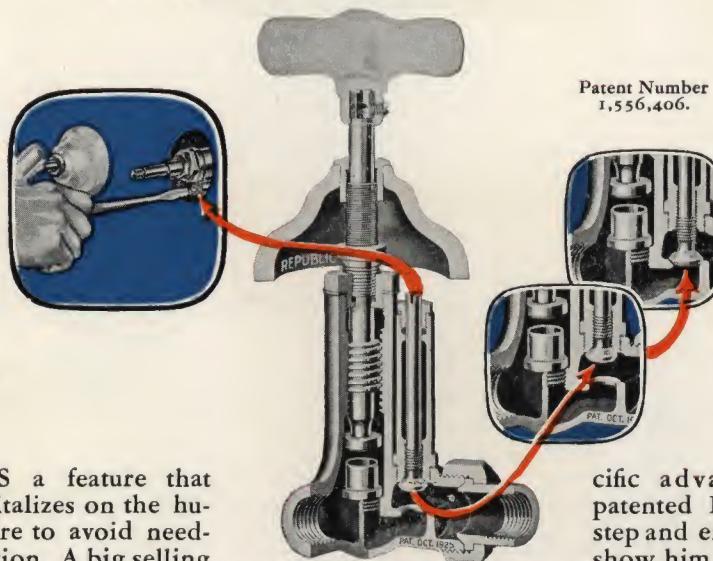

It is the only 100% depend-

able drain—the only drain that insures so great a degree of sanitation. And it's so simply constructed that nothing can get out of order.

When the Republic Trip Lever Drain goes in 100% "drain satisfaction" remains for the life of the building.

## REPUBLIC Integral Stop Valve

No. 1110

HERE'S a feature that capitalizes on the human desire to avoid needless exertion. A big selling point with the men folks! Demonstrate the Integral Stop principle to Mr. Buyer. Show him the spe-

cific advantages of this patented Republic time, step and energy saver. Just show him. After that you can't stop him from insisting on Integral Stop Valves for all his built-in fixtures.

# REPUBLIC

# CRAFTSMANSHIP

## *Expressed in Brass Goods*

You can buy a watch for \$1.17.

You can also pay \$60, \$75 and more for one.

The "tin-ticker" is used and forgotten.

The real time-piece serves faithfully—More . . . it inspires pride, joy in possession. Why? Because the spirit that created it finds a

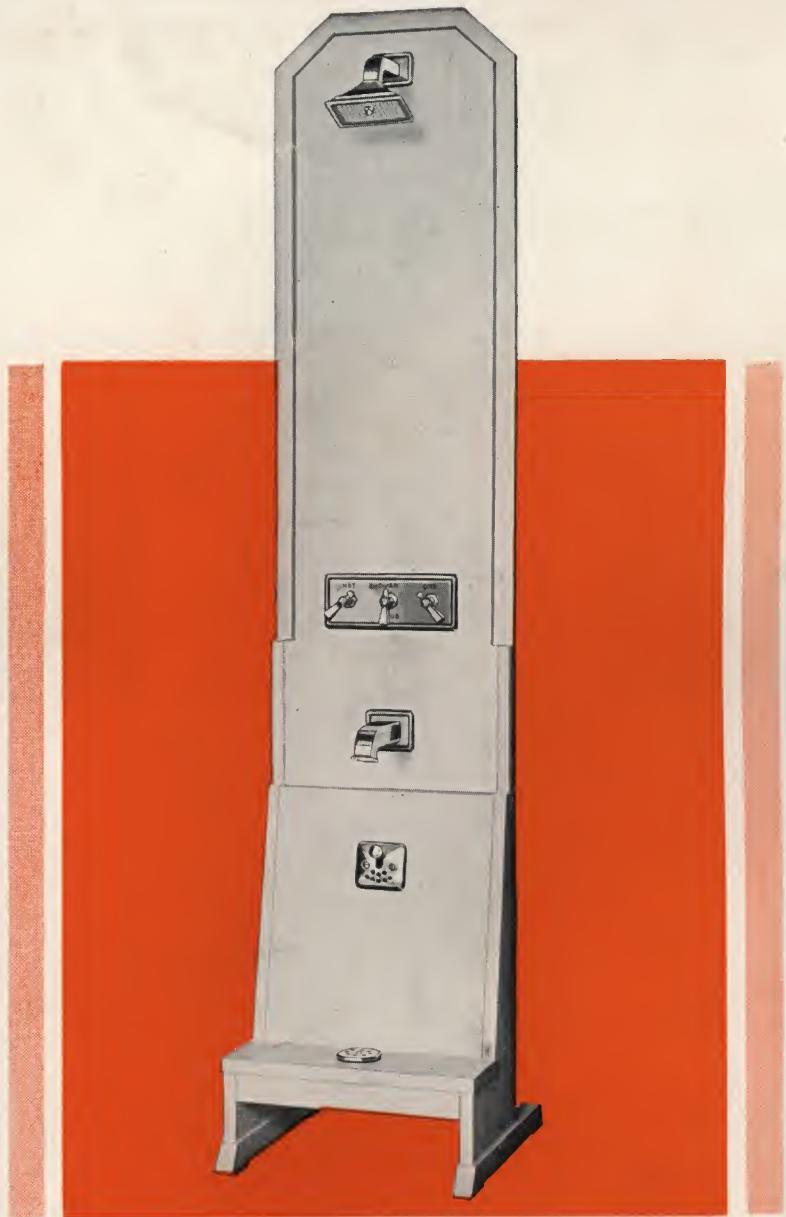

kindred spirit in the pride of its possessor.

Worthy materials, honest workmanship lie under the gleaming, satiny coats of Republic Fixtures.

The Republic trademark—like the hallmark on a piece of sterling silver—is a symbol of craftsmanship and a pledge mark of value to the buyer.

# *Bath, Shower & Lavatory Fixtures*

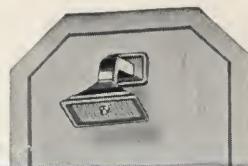

Let us explain how you can put one of these impressive display stands on your showroom floor.
